

Start digitization and give all your systems a fully automatic readable, globally unique ID

... and we make your assets visible with one click!

We want to make it easier for you to get started with digitization.

The first step in practical implementation is to give everything a unique, automatically readable identity.

That's why we offer you transponders, smart labels, BLE sensors / beacons and reading systems from our collection.

Check it out! (Click and change to English on the Website)

Das Crystal-TE-UHF Smart Label mit Sicherheits-Stanzung

ScanGate-Sensor-Transponder® mit eindeutiger ID und R/W-Speicher

More offers will follow!

Why DATATRONIC?

We produce RFID transponders and BLE sensors, preferably in your housing, in Europe, in small or medium batch sizes, which allows us a high degree of flexibility and the fast implementation of your requirements.

DATATRONIC has been involved in AutoID and IoT technologies for more than 40 years.

We would be happy to share our knowledge and experience with you so that we have both benefits.

Please do not hesitate to contact us.

Mit freundlichen Grüßen
With best regards

DATATRONIC GmbH
